Step 5: Complete your order - domain name

The next step in ordering process is domain configuration. To use your hosting features like web shop or e-mail you need a domain name. You can get one in 3 ways:

1. **Register new domain name.** You can search for a new domain name and add its registration to the shopping cart. Registration price may vary depending on chosen domain type.

Domain Configuration

Below the tabs is a search bar with the text 'example333test.com' and a magnifying glass icon on the left, and a blue 'Search' button on the right. Below the search bar, there is a green checkmark icon followed by the text 'example333test.com is available!'. To the right of this text, the price '8.42 GBP /yr' is displayed. Further right is a blue 'Add to Cart' button.

2. **Transfer domain name.** If you have domain name registered in other registrar you can transfer it to us. Please note that to initiate the transfer you need to acquire AuthInfo code from current registrar.

Below the search bar, there is a green checkmark icon followed by the text 'Your domain is eligible for transfer'. To the right of this text, the price '8.94 GBP /yr' is displayed. Further right is a blue 'Add to Cart' button.

3. **Use owned domain.** If you have domain name registered in other registrar you can configure it to use our hosting services instead of transferring it. You will get an email with instructions how to set it up after placing your order. Please note that in this case, you will still need to maintain the domain with your current registrar. Our invoice will not contain any fee regarding to your domain. To use your own domain type its name and press "Use" button
